ME 280 / MSC 202
Introduction to Materials Science
Course Organization

Instructor: Professor David J. Quesnel, Hopeman 220  phone (585) 275-5215
david.quesnel@rochester.edu  fax (585) 256-2509

Teaching Assistants: Teaching Assistants, with office hours, as listed on the course website.

Academic Honesty: The academic honesty policy of the university applies to this course.

Goals of the course: 1--To understand the reasons why materials have the properties that they do.

2--To gain the ability to use your knowledge of materials behavior to select and use materials in the design of engineering solutions.

Course Web site: http://www.me.rochester.edu/courses/ME280/ (case sensitive URL)

Times and Locations: T & Th  9:40-10:55 AM  Harkness 115  main lecture
W  2:00-3:15 PM  Hylan 202  problem solving
W  4:50-6:05 PM  GRGEN 108  problem solving
M  2:00-3:15 PM  GRGEN 108  problem solving

Homeworks: Assigned on course website; Always due in class on Thursday.

Grading Breakdown: Weekly assignments 20%
Labs (both together) 10%
Midterm exams(all) 30%
Final exam 40%
100%
